CRATE ASSEMBLY

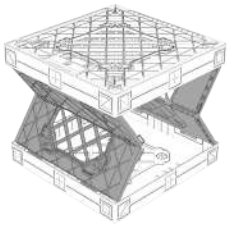

Unpack & Level

1

Remove packaging from around the crate. Place the crate on a flat, level surface with the **lid side facing up.**

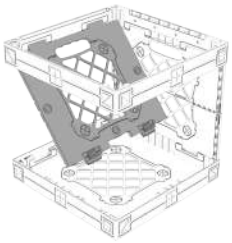

Pull Up

2

Grip the top rim of the crate on opposite sides and pull it upwards. **Pull out any accessories** from inside the crate.

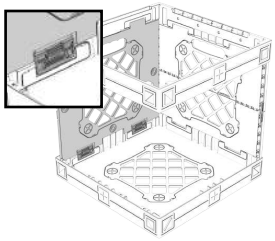

Swing Down

3

Swing down the two full side panels: Reach inside and pull down each full side panel until they are both positioned vertically.

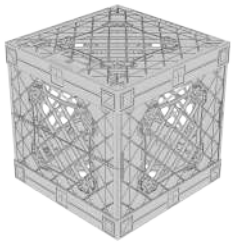

Lock Sides

4

Lock the full side panels in place: Push down on the locks on each full side panel until they snap securely.

Inspect

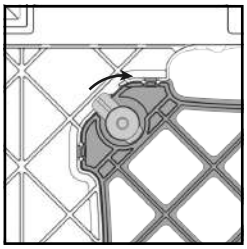

5

Ensure tabs are aligned: Make sure the tabs on the full side panels snap into the corresponding slots on the folding panels.

LOCKER PANEL ASSEMBLY

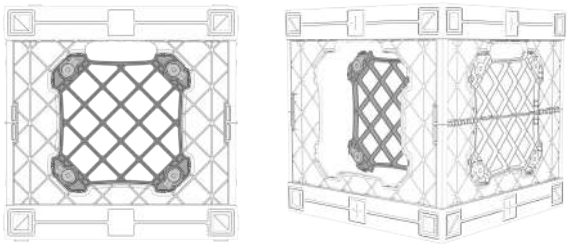

Unlock Panel

1

Place the crate on a flat, level surface. Turn each of the **four panel locks a quarter turn** to unlock them.

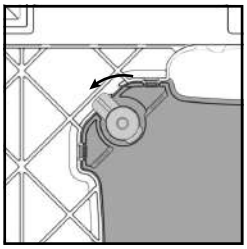

Pop Out Panel

2

Release the panel by pushing inward on each of its four corners from the outside of the crate. This will "pop" the panel out.

Re-Secure Panel

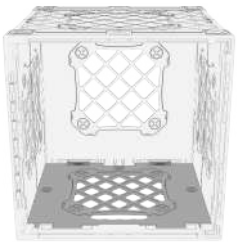

3

From the inside of the crate, push the panel back into place until it snaps securely on all sides. Turn all four panel locks back to their locked position.

CRATEFIN™ INSTALL

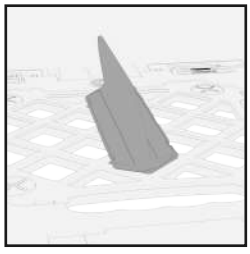

Place On Side

1

Open the lid and rotate the crate 90 degrees, positioning one full side panel flat on a hard surface.

Insert CrateFin

2

Insert the CrateFin into the side panel, ensuring both bumps on one side of the CrateFin align and fit through the openings on the panel.

Secure CrateFin

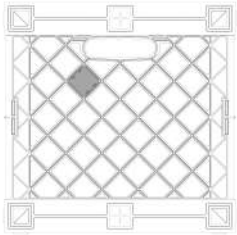

3

Use a hammer to tap each end of the CrateFin until it snaps through the panel and locks firmly into place.

Magnet Clip

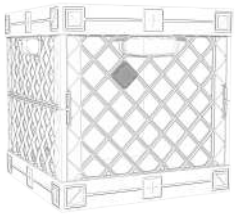

Insert Clip

1

Insert the Magnet Clip **into the grid openings** on the side of the crate.

Snap In Place

2

Press firmly on the center of the Magnet Clip to snap it into place.
