CRATE ASSEMBLY

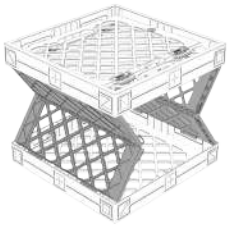

Unpack & Level

1

Remove packaging from around the crate. Place the crate on a flat, level surface with the **rim side facing up.**

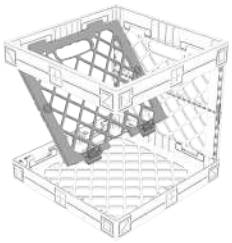

Pull Up

2

Grip the top rim of the crate on opposite sides and pull it upwards. **Pull out any accessories** from inside the crate.

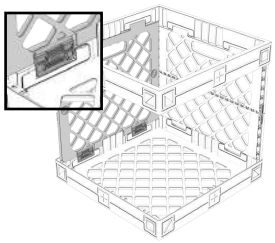

Swing Down

3

Swing down the two full side panels: Reach inside and pull down each full side panel until they are both positioned vertically.

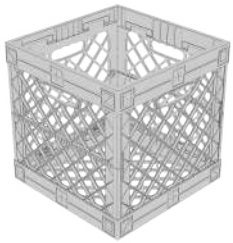

Lock Sides

4

Lock the full side panels in place: Push down on the locks on each full side panel until they snap securely.

Inspect

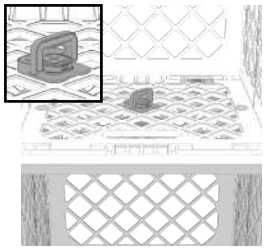

5

Ensure tabs are aligned: Make sure the tabs on the full side panels snap into the corresponding slots on the folding panels.

CRATE CONNECTORS

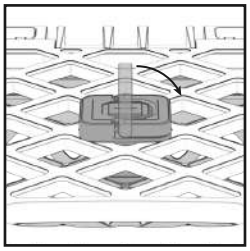

Insert D-Ring

1

Stack one crate on top of another. Insert the D-Ring Connector **through the matching grid openings** on both crates.

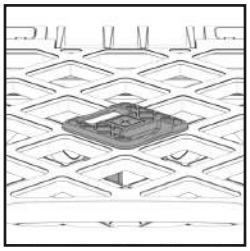

Rotate & Fold

2

Rotate the handle 45° to lock the crates together, then fold the handle down flat.

Snap-Fit Connect

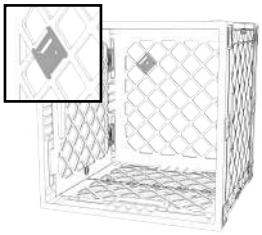

1

Stack the crates and align the grid openings. Press the Snap-Fit Connector **through both crates** until it snaps into place.

WALL MOUNTING

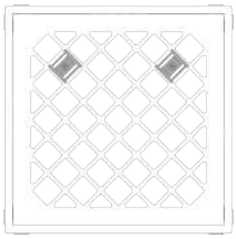

Insert & Mark

1

Snap the Screw Clip into an **inside grid opening and mark the wall** through the screw hole.

Screw Into Wall

2

Remove the crate, **install anchors**, then reposition the crate and **screw through the clip to secure.**
